

Self Employed

Why choose DLR Accountants?

Other firms will charge you for what we consider to be essential tax advice. At no extra charge we are constantly undertaking a review of your tax affairs to ensure that we keep your liabilities down and that where changes are required they are made in good time.

This could be for instance advising if you should be trading through a Limited Company if your income is above £25,000.

We offer an all inclusive low monthly fee that is fixed and agreed in advance.
